

Count on it.

TITAN Z Zero Turning Radius Mowers

BORN TO PERFORM

The shark in the gene pool.

Only one residential zero turning radius mower comes equipped with commercial-grade DNA –Toro® TITAN Z. A colossal chunk off the Toro industrial-strength Z legacy, it's the most relentless grass-eating machine ever. Predisposed to long days and enormous yards. Born to perform and built to last. TITAN Z. Overkill? Maybe. Essential? Absolutely. After all, life is always better at the top of the food chain.

- This baby doesn't purr. It growls. Don't let the aggressive stance and muscle-bound physique fool you, Toro® TITAN Z is one
- razor sharp machine. Everything you see (and plenty you don't) is unmistakably Toro, the proven authority in zero turning radius quality and innovation. Take for example the 2" x 2" tubular steel frame, the unwavering backbone for our rugged

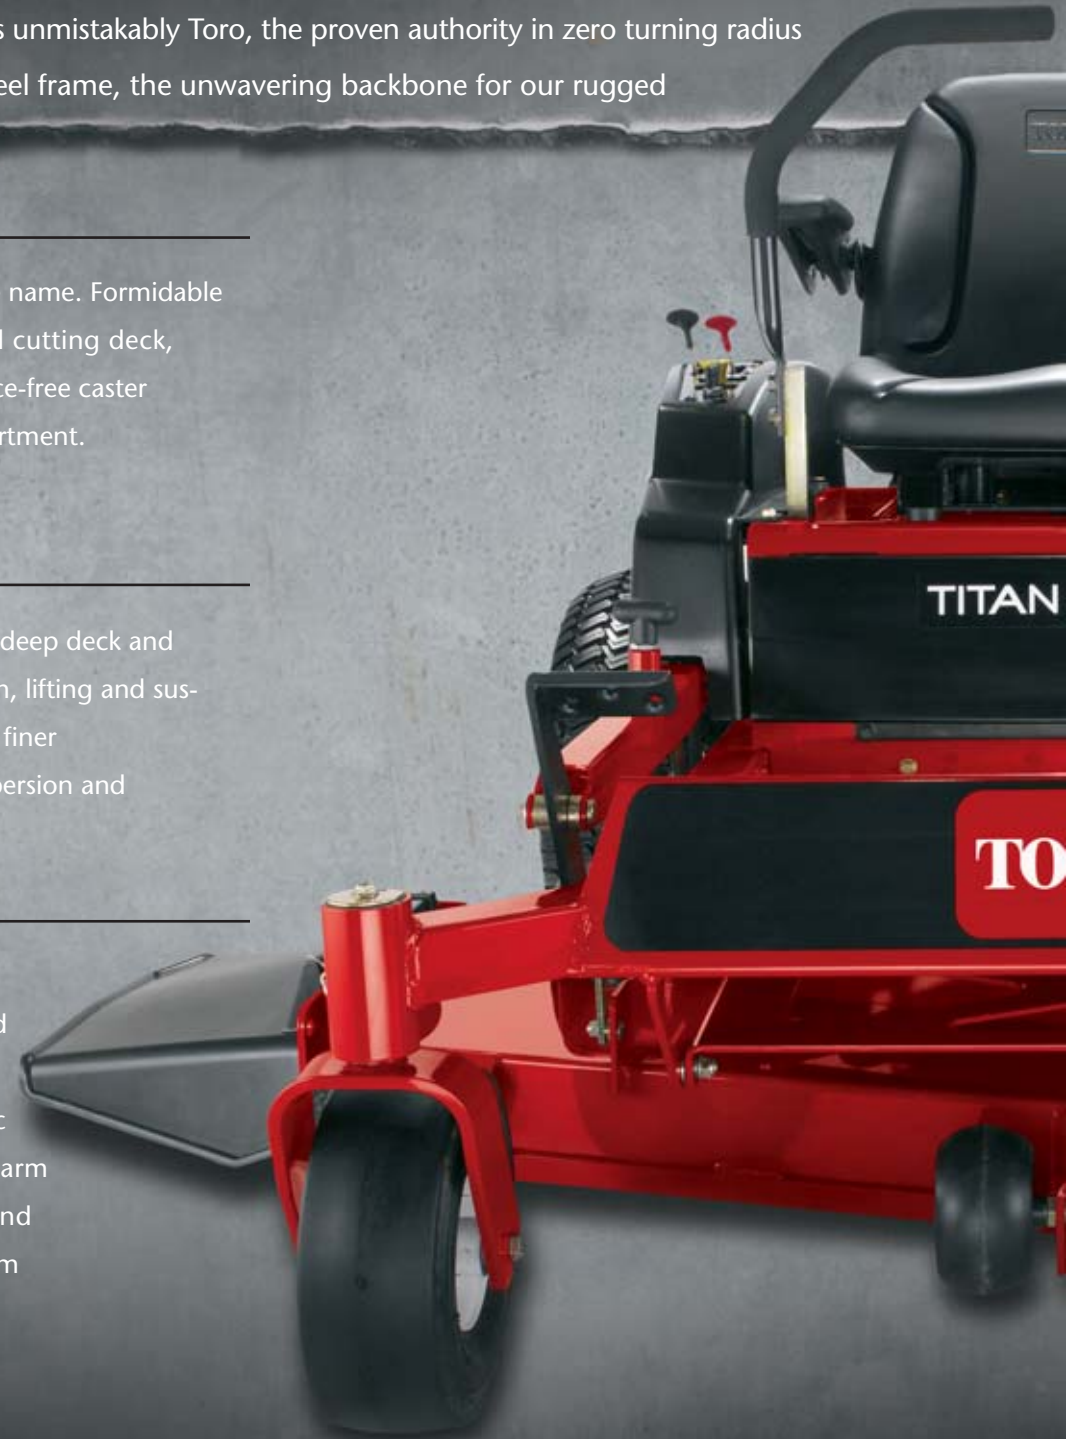

TORO TOUGH Durability is our middle name. Formidable features include a fully welded, reinforced cutting deck, heavy-duty tubular steel frame, maintenance-free caster wheel assembly and rugged engine compartment.

MAXIMUM MOMENTUM New, 4" deep deck and sanded-edge blade create a powerful vacuum, lifting and suspending clippings until they are re-cut into finer particles. The 3-blade design enhances dispersion and eliminates clumping.

CONTROL² Twin independent ZT2800 hydrostatic drives with integrated charge pumps allow precise, multi-directional cutting control while hydraulic dampers eliminate "jerky" operation and arm fatigue typical of spring-return designs. And like all things Toro, you can count on them to last.

power train. And then there's the most advanced, welded steel cutting deck to see the light of day. All this plus a comfort seating system that's got your back. Front to back—and every weld in between—TITAN Z is built to take everything you throw at it and come out smelling like fresh grass clippings. It looks like you've just met your new best friend.

POWER TRIP Intelligent distribution of horsepower is a Toro trademark. We marry high-output, low-maintenance Briggs & Stratton ELS® twin cylinder engines with specific TITAN Z configurations to deliver peak performance and speeds up to 7.0 mph. And cast iron cylinder liners, full-pressure lubrication and an efficient OHV design mean the joyride won't be ending anytime soon.

HARDCORE COMFORT With our premium comfort package, you'll want to mow all day. The low center of gravity creates added stability. A forgiving 18" high back seat with three shock absorbing springs, adjustable armrests and ergonomically inspired control levers put you comfortably in control. Even the cup holder is designed around you.

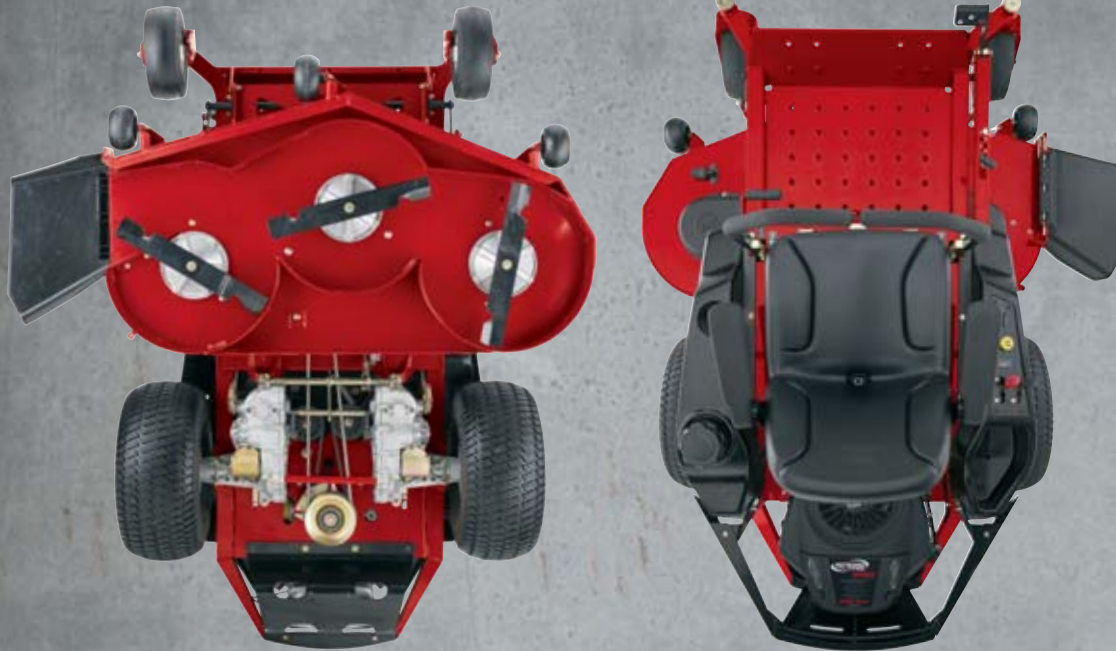

PUT YOUR FOOT DOWN The foot-operated height of cut adjustment feature frees your hands for more important work. It allows you to raise the deck while in-use or reset the cutting height for a more precise cut.

For complete specifications, see the following page.

Performance runs in the family. With these commercial grade attachments and accessories, you'll have to fight the primal urge to mow the corporate campus next door. Choose your Toro® Titan Z with confidence knowing the Toro nameplate comes standard.

Attachments and Accessories

TWIN BAGGER Attaches easily and is great for cleaning up grass clippings and leaves.

MULCH KIT Optional mulch kit cuts and re-cuts clippings into fine particles and redirects them back into the turf for a healthy looking lawn.

HEADLIGHT KIT Gives you the option to mow your grass in low light conditions.

SUN SHADE Helps protect your skin and eyes from the harsh summer rays.

We reserve the right to improve our products and make changes in the specifications, designs and standard equipment without notice and without incurring obligation. Products depicted in this brochure are for demonstration purposes only. Actual products offered for sale may vary in design, required attachments and safety features. See retailer for full details or visit www.toro.com.

TITAN Z4800

ENGINE*

	22hp Briggs & Stratton® ELS® Twin Cylinder OHV Engine
Construction	Full Pressure Lubrication Spin-On Oil Filter Cast Iron Cylinder Liners Long-Life Valves
Engine Guard	Standard, Cast Aluminum with Steel Supports
Fuel Capacity	4 Gallon

MOWING DECK

Width	48" 3-Blade
Deck Construction	Fabricated 10 Gauge Steel
Mulch Kit	Optional
Height of Cut (H.O.C.)	1.5" - 4.5"
Foot Operated H.O.C.	Standard
Anti-Scalp Wheels	3 - Standard
Blade Engagement	Electric PTO
Deck Washout Port	Standard

TRANSMISSION

	Dual Hydrostatic ZT2800 Drives with Charge Pumps
Steering	Adjustable, Wrap Around Levers with Hydraulic Dampers
Brake	Manual - Hand
Ground Speed	
- Forward	7.0 mph
- Reverse	5.0 mph
Tires	
- Front	10" x 4" Smooth
- Rear	20" x 9"

EQUIPMENT

Frame Construction	2" x 2" Tubular Steel
Floor Pan	Non-Slip, Pierced
Comfort Seating System	
- Seat	Adjustable, 18" High Back
- Armrests	Standard
- Seat Springs	3-Standard
Hour Meter	Standard
Cup Holder	Standard
Storage Compartment	Standard
Battery	Wet (Charged)
Warranty**	3 Year Limited

TITAN Z5200
